### About Me

As a passionate and innovative web developer, I thrive on crafting engaging and user-friendly websites that blend functionality with visually appealing designs. With 2 years of experience in the domain, I have honed my skills in front-end and back-end development, enabling me to create seamless digital experiences that leave a lasting impression.

### Projects

● Freelancing Website [2022] Developed the backend of Freelancing Website with Rest APIs like POST, GET, PUT, DELETE, and used MySQL DB for storing.

● Portfolio | <https://my-portfolio-bharlgitr.vercel.app/> [2022] Developed my own portfolio where users can submit the contact us form, used technology like HTML, CSS, JS, Node.js & MongoDB.

● Weather App | <https://seetyl-assignment.vercel.app/> His project was an assignment where I built this weather app using Leaflet, Weather API.

● YouTube Clone | <https://youtube-clone-bharlgitr.vercel.app/> Made YouTube Clone using React where I used technology like Redux, React, YouTube API.
